

JUNIOR SOFTWARE DEVELOPER

An exciting opportunity for enthusiastic and innovative C# .NET developer to join us.

Established in 1995, AlphaLogix has become one of the largest Accredited Sage Business Partners and Sage Software Developers in the UK and are highly regarded developers in the Sage Community. We specialise in the development of CRM and Sage Accounting/ERP solutions, bespoke programming, web-based solutions and the development of applications.

This is a great role for someone who would like to be involved with a friendly, fast-growing company and who likes to see a project through its complete life-cycle, from initial analysis to successful installation.

Required Skills:

- IT related qualification or equivalent experience in an IT related role.

Personal Skills

- Excellent problem-solving abilities.
- Self-motivated with good time management, written and communication skills.
- Desire to operate in a fast-paced environment as part of a highly skilled team.
- Experience of working with processes such as software development life-cycles and change management.

Responsibilities:

- Write bespoke software and develop Windows and Web-based solutions/applications.
- Full project life-cycle, prepared to take ownership of issues raised and pursue until resolved.
- Configure software and install onto client's systems.
- Produce documentation and liaise with client's when necessary.

Desirable Skills:

- C# Development.
- Understanding of Microsoft's .Net environment, SQL and Visual Studio.
- knowledge of VBS and Javascript
- Experience with Sage 200 and CRM software an advantage.
- Experience of Xamarin would be advantageous.

Salary: £22,000.00-£24,000.00 per year Salary negotiable depending on Skills and experience

Full-time, Permanent

Salary negotiable, depending on qualifications and experience
